SOCIAL SHARING
Social Media

SIGN the petition that calls on world leaders to protect 30% of our blue planet by 2030

SHARE the animal stickers (including AZA SAFE species)

TAG #ProtectOurHome #WorldOceansDay

Download the full social media guide here
People have not always been kind to the ocean, but now we have a real chance to help! Join @Zoo/Aquarium and people around the world by signing in support of the global movement to protect 30% of our lands and ocean by 2030. Together we can

#ProtectOurHome: WorldOceansDay.org/Petition #WorldOceansDay #30x30

Just like national parks help protect animals and habitats on land, marine protected areas help safeguard areas of the ocean and marine animals. @Zoo/Aquarium is telling world leaders to protect at least 30% of our ocean by 2030. Will you join us? Sign in support of #30x30 for #WorldOceansDay: WorldOceansDay.org/Petition

#DYK only 7% of our ocean is currently protected, yet scientists say we need to safeguard at least 30%. This #WorldOceansDay help @Zoo/Aquarium grow the global movement to protect 30% of land and ocean by 2030: WorldOceansDay.org/Petition #30x30

Even when at home you can still celebrate the ocean and help ocean animals have a safe home! Start getting ready for #WorldOceansDay by joining with @Zoo/Aquarium and signing WorldOceansDay.org/Petition #WorldOceansDay! #30x30

As we all cope with the current crisis, many leaders here in [Your Country] and around the world are seriously considering a proposal to protect 30% of our land and ocean by 2030. @Zoo/Aquarium is proud to add our support to this #30x30 proposal, and encourage others to do so at WorldOceansDay.org/Petition #WorldOceansDay! #30x30
Action Summary

1. Create a celebration
2. Join a celebration
3. Share on social media
